TRANSPLANT

HEART TRANSPLANT PATIENT

IMMUNOSUPPRESSANT TROUGH PROTOCOL ACTIVE

By 07:30
Verify trough order is present. If not, contact provider.

08:30 Draw
Draw trough level (window 08:15 – 08:45)

By 09:00
Administer dose immediately after draw

Do NOT draw trough with routine AM labs (03:00 – 04:00)

Do NOT hold dose waiting for lab result

MAR Documentation
Record actual last-dose clock time — not the scheduled time

Window missed or timing unclear?
Contact transplant provider immediately
